## China's Hidden Horrors The Rape of Nanking, Comfort Women & Biological and Chemical Warfare-Unit 731

### Teacher Training Workshop

Four South Jersey Educators travelled to China in the summer of 2015 on a Peace and Reconciliation Study Tour to increase their understanding of the cultural and historical background of China, Korea, and Japan during World War II. They engaged in discussions with survivors, victims, eyewitnesses, museum curators, historians, researchers, NGO activists and attorneys. They are committed to link the lessons of the Holocaust and WWII in Asia to educate students about the past to ensure it does not happen again.
